2Gen REGIONAL LEARNING CONVENINGS

Connecting Families, Communities & Systems:
Building Pathways to Economic Mobility

Join us for a collaborative working conversation focused on how we better connect family–level services, community investments, and regional systems so that children and families experience measurable progress toward stability and economic mobility.

Purpose of the Convening

This convening is designed to surface and map the work already happening across Eastern Maryland, identify where efforts and systems can be better connected or aligned, and uncover gaps and opportunities for stronger regional coordination. Rather than focusing on a single program or label, the conversation will explore how Whole Family/2Gen approaches, ENOUGH investments, Community Action, and other community strategies can work together to strengthen outcomes for children and families.
